PARADISE FOR BIRDS & DOLPHINS

CHILKA LAKE
Paradise for birds and dolphins

Chilka lake, popularly known as Chilka, the queen of Natural scenery in Odisha, also known as the Swiss-lake in the continent. Nestling in the heart of coastal Odisha, Chilka is India's largest inland lake. Spread over 1150 sq km during the monsoon season and 900 sq km during dry season, it runs along the border of three districts of PURI, KHURDA and GANJAM and finally joins the Bay Of Bengal through a narrow mouth, forming an enormous lagoon of brackish water. Chilka is the largest brackish water lagoon of Asia situated on east coast of India. It is situated between 19°20' and 19°54' North latitude and 85°05' and 85° East longitude.

PROTECT - CHILKA LAKE LOCATION & DOLPHIN HOUSE

Chilka lake is located in Orissa state of India. Chilka lake is home to Irrawaddy dolphin. The lake gets fresh water from sea. Thus due to the brackish water in the lake it is a good habitat home to dolphins.

Irrawaddy Dolphin

Irrawaddy Dolphin is found in Chilka lake. Irrawaddy dolphin can be seen in brackish and freshwater areas. It is found in Chilka lake. It is an endangered species.

Class. III C

to the dolphin's body. They hold their breathe as they go into the water and breathe out when it reaches the water surface through blowhole.

It is the hole at the top of the dolphin's head which helps them in breathing and to produce a variety of noises used to communicate. These sounds are projected by the dolphin's melon which is the large and fatty forehead. The long nose of the dolphin is called Rostrum.

Chilka Development Authority (CDA) says Chilka lake in Odisha is now the single largest habitat of the Irrawaddy Dolphins in the world.

Chilka lake is a brackish water lagoon. It is spread over Puri, Khurda and Ganjam districts of Orissa. It covers an area of 1100 sq km. It is home to large number of migrant birds.

THANK YOU
